### Professional Learning Day Plan – September 19, 2025

The following is a brief description of our planned professional learning work for September 19. This work is organized around our district's four collective goals:

- All students shall read, write, and communicate at grade level in both languages of instruction.
- All students shall be at grade level in numeracy.
- All students and staff will feel safe, cared for, and engaged in learning.
- All students shall graduate from high school.

School staff will monitor the impact of their work from September 19, and on subsequent professional learning days, in achieving these goals.

#### Literacy

- Grades 1-8 teachers will use indicators of early literacy skills to guide instruction and interventions.

#### Numeracy

- Teaching teams will target instructional practices by examining student numeracy data.

#### Safe, Cared For, and Engaged

- Staff will plan for reinforcing positive behaviour expectations through the behaviour matrix and Tier 1 de-escalation strategies.
- Educational Assistants will complete professional learning on executive functioning skills to build inclusive practices.
- Custodians will enhance safety through fire extinguisher training and building inspections.

#### Graduation

- Administrative assistants will learn to generate reports that help the education support services team identify students needing early intervention.
- Teaching teams will align instruction with school improvement goals to ensure student success.
