Professional Learning Day Plan – September 25, 2026

The following is a brief description of our planned professional learning work for September 25. This work is organized around our district's four collective goals:

- All students shall read, write, and communicate at grade level in both languages of instruction.
- All students shall be at grade level in numeracy.
- All students and staff will feel safe, cared for, and engaged in learning.
- All students shall graduate from high school.

School staff will monitor the impact of their work from September 19, and on subsequent professional learning days, in achieving these goals.

Literacy

- K-5 teachers will analyze student evidence and benchmark data and explore effective instructional practices.
- 6-12 ELA teachers will learn strategies to strengthen reading identity and engagement.
- ELA and FI teachers will collaborate in PLCs and planning sessions.

Numeracy

- Grades 6-12 mathematics teachers will develop effective warm-up routines and continue PLC collaboration to increase student engagement and readiness to learn, resulting in improved numeracy achievement.

Safe, Cared For, and Engaged

- Educational assistants will participate in professional learning focused on Personalized Learning Plans to strengthen their understanding of student needs, accommodations, and support strategies, enabling them to provide more targeted assistance that promotes student engagement, independence, achievement, and overall success in the classroom.

Graduation

- Specialty teachers will participate in professional learning related to arts, music, curriculum, assessment, and long-term planning to provide engaging, curriculum-aligned learning experiences that support student achievement and success.
